***Allowable Subject Matter***

3. Claims 1-6 are allowed.

4. The following is an examiner's statement of reasons for allowance.

The prior art does not teach the device for adjusting the height of a collapsible stroller as recited in claims 1 and 6, which include an outer tube containing a cut out section along the entire length of the tube, a plurality of pair of holes equally spaced and opposite each other. The device for adjusting the height of a collapsible stroller also includes an inner tube containing two holes opposite each other and a length less than the outer tube. The device for adjusting the height of a collapsible stroller also includes a handle connecting to the inner tube. This recitation, in combination with the rest of the recited elements, clearly defines over the prior art.
